

# Konrad & Willi

Konrad and Willi are two friends with their own Steamlocomotive's.  
The locomotives operate with water, gas and oil. The models are "ready to run", they can be used directly. All tools for using are in the package. You need only gas from the building centre and distilled water. The gauge exactness can be positioning with the adjust-gauge and the tool.

**Dates: Best.Nr. 25100**

L/B/H: 232/105/156 mm  
Boilercapacity: 102ml  
Gauge exactness: 30, 32, 45mm  
Wheels electric isolated  
Elapsed time: ca. 15 min.  
Working pressure: 3bar  
Weight: 2280g  
Figure: babbitt metal, handpainted  
Cylinder bore:  $\varnothing$  10mm

**Dates: Best.Nr. 25200**

L/B/H: 211/105/175 mm  
Boilercapacity: 130 ml  
Gauge exactness: 30, 32, 45mm  
Wheels electric isolated  
Elapsed time: ca. 20 min.  
Working pressure: 3bar  
Weight: 2280g  
Figure: babbitt metal, handpainted  
Cylinder bore:  $\varnothing$ 10 mm

#### Pack Index Konrad & Willi:

- Konrad or Willi ready to run
- Figur "Konrad" or "Willi"
- Manometer + Syphon
- Steamoil
- Gasadapter
- Feedbottle
- Adjust Gauge ] Tools
- Instruction manual

# 480,-€
